INTRODUCING UNITY CONSCIOUSNESS

UNITY in life

Everything in the universe is made up of 5 elements. These are - earth, water, fire and Ether. Thus, the roots of all life are the same. This tells us that we are United at the roots of life.

We are all breathing, vibrating packets of Energy. All of our energies merge together to create the unified field of Cosmic ONE energy. This is another message of UNITY in life.

We are all created by Nature and we have a deep connected with everything in Nature. We can experience our connection with one or more trees in our backyard. Establishing that connection makes us experience our UNITY with Nature. We are constantly exchanging energy with the trees. Without the oxygen from trees, we can't survive. In return the trees are constantly absorbing CO2 released by the human body.

The source of all life is ONE and the only ONE – Consciousness.

CONFERENCE MISSION

The presenters of World Unity Conference will explore inner unity and bring collective consciousness globally. Spiritual Heritage Education Network will strive to become a global hub of knowledge and practices by making them available worldwide. Education policy makers, curricula developers, and facilitators in classrooms will benefit from this foundational knowledge to awaken unity consciousness by transforming learning.
